## Human Scale Switch Mouse

The Switch Mouse is an innovative mousing solution that boosts comfort and reduces the risk of injury. This groundbreaking peripheral device integrates two new innovations—a V-shaped base and a four-way scrolling dish with a built-in palm support and size adjustability to provide ultimate comfort for any computer user.

Features:

- V-shaped base positions wrist and arm at a natural angle
- Scrolling dish provides vertical and horizontal navigation
- Adjustable length ensures proper fit for most users
- Integrated palm support eliminates contact stress and reduces risk of carpal tunnel syndrome
- Symmetric shape accommodates left- or right-handed use
- Encourages the use of large arm and shoulder muscles, allowing delicate hand and wrist muscles to relax
- Programmable buttons for user-specified functions

Specifications

- Certified for Windows and MAC OS
- Cable Length: 59"
- USB Connector
- Resolution: 800dpi
- Technology: Optical Scanning Technology
- Switch: Micro Switch
- Current Consumption: Max70mA
- Switch Mechanical Life: 1,000,000 cycles
